Someone's heart is breaking, I don't think it's funny  
Power in hands of corruption stepping on our rights  
What 'bout the people that lost their loved ones?  
Unnoticed unrightfulness  
What makes you think you're better than they are?  
'Cause to me we're all the same

Will this fighting ever stop?  
Twisted patterns from the past  
pass it down from the parents to the young  
When is it gonna stop?  
When is it gonna stop?  
Who's gonna stop it?  
Gonna stop it

Let me love you - I don't wanna fight no more  
Let me touch you - I don't wanna fight no more  
Let me love you, love you, love you  
I don't wanna fight no more

I think the greatest thing you can learn is to be kind  
To every person in this world to everything in this  
universe

Will this fighting ever stop  
One side give the other side momentum  
to throw another hit  
Back and forth, back and forth  
Feed each others existence  
It never stops, never stops  
Who's gonna, who's gonna stop it?

Let me love you - I don't wanna fight no more  
Let me touch you - I don't wanna fight no more  
Let me love you, love you, love you  
I don't wanna fight no more
