"A Gift Of Love"

(feat. Barry Manilow)

Here in this silent night
Now all the world all is right
As if we've suddenly been given
A gift of love a gift of love
Warm as the fire glows
Soft as the fallen snow
A precious miracle we live in
This wonder of
A gift of love
Night falls at this coldest time of the year
Love calls and its summer in here
Here where I love you so
Now as our blessings grow
We share the greatest gift we'll ever know
A gift of love A gift of love
