Chorus:

I'm giving you the best of my love
You love me but you take it too far
I need ya but you make it so hard
'cause I'm giving you the best of my love

All at once you appear
In my dreams you're always near me
And my lesson in life is to love you well
'cause I believe in happy endings

All my luck has run out
But you pick me up, you're always waiting
'cause there's no better way
To walk right out this maze we're in

(repeat chorus)

In my life I have dreamed

To wake up and have you near me
And when the angels spread their wings
And I can hear them singing through me
All at once in my life
Can I get back what I've been giving
And if I work all these strings
Then I could make a different ending to the story

(repeat chorus twice)

I'm giving you the best of my love
I'm giving you the best of my love

(repeats to fade)
