LOOKING for UNKNOWN Tomorrow song....
which was played on an FM radio show in
Los Angeles called "She Comes In Colors"
last Saturday.

The song was back-identified as being
"Caught In The Web" by Toomorrow...and
the lyrics (paraphrased) go something like,
"The time has come/To meet your girl/
When you see her everywhere", ETC. Male
vocals BUT a female vocal added...COULD
HAVE BEEN ONJ...

But listings for the RCA Toomorrow LP don't
show this mystery song. I used to be a music
reviewer for DISCOVERIES Magazine; and now
am in the movie, MAYOR OF THE SUNSET
STRIP.

Sincerely,
RONALD VAUGHAN
