I love you, I want you, I need you  
Are the lines I've heard  
I'm wanting so much to believe you  
But don't use words

By the look in your eyes  
I see you're getting weak  
Please, fight the urge to speak

And don't say that, not now, not here  
I just wanna feel your touch  
Don't say that, too soon, I fear  
Show me something I can trust

You stole my heart on the night we met  
And I'm not ready to follow it yet  
So whatever you do, don't say that  
Don't say that, don't say that

Just hold me and show me  
You love me that says it all  
These moments of tenderness  
Mean so much more

And we'll get there eventually  
So please be patient with me

And don't say that, not now, not here  
I just wanna feel your touch  
Don't say that, too soon, I fear  
Show me something I can trust

You stole my heart on the night we met  
And I'm not ready to follow it yet  
So whatever you do, don't say that

Don't say we'll last forever  
We'll always be together  
Just lay here silently next to me  
And don't say that, don't say that, no

Don't say that, not now, not here

I just wanna feel your touch  
Don't say that, too soon, I fear  
Show me something I can trust

You stole my heart on the night we met  
And I'm not ready to follow it yet  
So whatever you do, your kiss is all of the proof I  
needed  
So whatever you do, don't say that, oh, don't say that

Don't speak, don't talk, just hold me honey  
You don't have to use words, just hold me honey  
(I want you, I need you, I love you)  
(I just can't stop thinking of you)  
No need to speak  
No, no, no, no don't use words

I want you, I need you, I love you  
I just can't stop thinking of you  
I want you, I need you, I love you  
I just can't stop thinking of you
