"Gift of Love"

Visit "[Gift of Love](#)" on MotoLyrics.com

Here we are at last
Suddenly the pieces fit
All at once, I make sense of this crazy world
Loved you for so long
Now your hand is holding mine
It's like we're standing still in time

This is our moment
This is our night
A new beginning of the rest of our lives
With every heartbeat, with every kiss
Let's always remember that love is a gift

With each passing year
We will keep our love alive
I will be here by your side forever
Looking in your eyes, I believe in destiny
I believe in you and me

This is our moment
This is our night
A new beginning of the rest of our lives
With every heartbeat, with every kiss
Let's always remember that love is a gift

The rarest thing we have on earth
Is so special there's no measuring its worth

This is our moment
This is our night
A new beginning of the rest of our lives
With every heartbeat, with every kiss
Let's always remember forever and ever
Let's always remember that love is a gift
It's a gift
