(Cook/Greenaway/Goodison)

There's never been a day when the sun wouldn't shine
for me
Everything that I needed you've given so tenderly

If I believed in witchcraft I'd think that you'd cast a spell
Keepin' us both together
I don't have to show it
I'm sure that you know it

'Cause everyone knows that
I could never live without your love, I'd die
You are all I need, Your love will get me by
Everything I am I really thank you for
In return you know I couldn't love you more

Now and again I've hurt you and cause you to wear a
frown
You never seem to worry, you don't let it get you down

Where would I be without you, I really don't wanna know
How could I ever leave you
I know the suggestion is out of the question

'Cause everyone knows that
I could never live without your love, I'd die
You are all I need, Your love will get me by
Everything I am I really thank you for
In return you know I couldn't love you more

I could never live without your love, I'd die
You are all I need, Your love will get me by
Everything I am I really thank you for...
