(Olivia Newton-John Amy Sky John Capek)

Life

A gift we cannot take for granted
We gotta live it right
We are the parents of our planet
We've touched the moon and built the final gun
If war was food we could feed everyone

Talk about the children
What will be their legacy
If they have a future
It is up to you and me
Talk about forever
For we may not have that long
Oh, it's now or never
Let's talk about
Let's talk about tomorrow

Trees, animals and seas
We're all connected
They have a right to be
But they can't ask to be protected
I feel the rain--burning from the sky
We are to blame--if we just close our eyes

Talk about the children
What will be their legacy
If they have a future
It is up to you and me
Talk about forever
For we may not have that long
Oh, it's now or never
Let's talk about
Let's talk about tomorrow

It's our only world
Please save us from ourselves

Talk about the children
What will be their legacy

If they have a future
It is up to you and me
Talk about forever
For we may not have that long
Oh, it's now or never
Let's talk about
Let's talk about tomorrow
