Long, long live love  
Love is to care  
Caring and sharing  
Long, long live love

All the kids like ten tin soldiers in a row  
Followed hand in hand  
Sister Anna carrying the banner  
For the Sally Annie band

Singing songs of praise and glory  
We all learn to love their story  
Good things are coming to you  
Glory, glory hallelujah

Long, long live love  
As long as we live  
Living forgiving  
Long, long live love

On a wet day, dry day, great to be alive day  
Brother takes the stand  
Cymbals ringing, everybody singing  
With the Sally Annie band

Just a band of happy people  
Teaching, preaching love is equal  
When you feel the spirit move you  
Glory, glory hallelujah

Long, long live love  
Love is to care  
Caring and sharing  
Long, long live love, love, love, love, love

Long, long live love  
As long as we live  
Living forgiving  
Long, long live love
