One heart, one heart
One heart at a time

Oh, the sound of children laughing is like music to my ears
It's like a choir of angels and they're singing crystal clear

IT'S THE SOUND OF FREEDOM
It's the sound of trust
It's the way their eyes shine 'cos they believe in us
It just takes...

One heart, one heart
One heart at a time
Can't you see it?
We'll be holding on so strong
With your hand in mine

We'll be the links in a powerful chain
That can erase the tears and the pain
That's how it starts
One heart, one heart
One heart at a time

Oh, the sight of children running just as fast as they can go
Makes the breeze so warm and wonderful, it whispers through your soul

They're running towards tomorrow
Running towards their dreams
We can pave that long road if we work as a team
It just takes...

One heart, one heart
One heart at a time
Can't you see it?
We'll be holding on so strong
With your hand in mine

We'll be the links in a powerful chain
That can erase the tears and the pain
That's how it's done
One heart, one heart
One heart at a time

We can all be heroes in the eyes of a child
When they're looking up at us for help
Yes, and we can make a difference
WE CAN GO THE DISTANCE
If we are willing to give of ourselves
Just have...

One heart, one heart
One heart at a time
Get the picture
And we'll be holding on so strong
With your hand in mine

We'll be the links in a powerful chain
That can erase the tears and the pain
It just takes
One heart, one heart
One heart at a time
