And every night, I lay awake)
(I find my reflection)

(And every night, it just stays the same)
(I dream of absolution)

In the night-light, do you see what you dream
All your troubles, are they all what they seem

Look around you, then you may realize
All the creatures saw with the light
And I might know of our future
But then you still control the past

Only you know if you'll be together
Only you know if we shall last

(In the night-light)

In the night-light, do you still feel your pain
For the valor you wait; it never came
If you were able, would you go change the past
To mend a faux paux with one last chance

And I might know of our future
But then you still control the past

Only you know if you'll be together
Tonight

'Cause every night I will save your life
And every night I will be with you
'Cause every night I still lay awake
And I dream of an absolution

'Cause every night I will make it right
And every night I will come to you
But every night it just stays the same
In my dream of an absolution

(In the night-light)

In the night-light, do you see what you dream
All your triumph and all you'll ever be

Look around you, then you may realize
Happiness lies trapped in misery
And who knows what of our future
We can all try to change the past

Only you know if you'll be together
Tonight

'Cause every night I will save your life
And every night I will be with you
'Cause every night I still lay awake
And I dream of an absolution

'Cause every night I will make it right
And every night I will come to you
But every night it just stays the same
In my dream of an absolution

[Instrumental]

'Cause every night I will save your life
And every night I will be with you
'Cause every night I still lay awake
And I dream of an absolution

'Cause every night I will make it right
And every night I will come to you
But every night it just stays the same
In my dream of an absolution

And you'll see (And you'll see)

What you'll be (What you'll be)

And you'll see

All you can (All you can)

And every night (And every night)
And every night (And every night)
And every night (And every night)
I will dream (I will dream)

And you'll see (And you'll see)
That this is my dream (What you'll be)
And you'll see
Every night
I will always dream ('Cause every night)

And every night
And every night
I will dream (I will dream)
