Watch the time as it moves along,
Taking you back always feeling strong,
Like a rush of the wind,
It goes; on and on and on and on and on...
He's the fire, flame, conflicting pain,
Untouched, crushed, will remain,
To one, to two, to three, to four,
Heading straight for an open door,
He can see, and he can feel,
Without one touch, It seems unreal,
But it's true, The power lives,
Inside of you (Inside of you, Yeah!)

In this world (his world!)
Where life is strong (Life is strong!)
In this world (his world!)
Life's an open book (open book!)
In this world (his world!)
Compromise does not exist,
In this world of worlds,
Every step meets the rest!

In this world (his world!)
One is all! (one is all!)
In this world (his world!)
Never fear the fall! (Fear the fall!)
In this world (his world!)
Compromise does not exist,
In this world of worlds,
Every step meets the rest!

Beware of your mind, as it proves you wrong
A bullet pushed as the clock strikes strong,
Like a rush for wind,
It goes; on and on and on and on and on...
He's the tower of power, Admits no shame,
Untouched, crushed, will remain,
To one, to two, to three, to four,
Heading straight for an open door,
He can see, what he can't feel,
Without one touch, It becomes so real,
But it's true, The power lives,

Inside of you (Inside of you, Yeah!)

In this world (his world!)
Where life is strong (Life is strong!)
In this world (his world!)
Life's an open book (open book!)
In this world (his world!)
Compromise does not exist,
In this world of worlds,
Every step meets the rest!

In this world (his world!)
One is all! (one is all!)
In this world (his world!)
Never fear the fall! (Fear the fall!)
In this world (his world!)
Compromise does not exist,
In this world of worlds,
Every step meets the rest!

Beware your mind as it proves you wrong,
A bullet pushed as the clock strikes strong,
In this world, his world.

In this world (his world!)
Where life is strong (Life is strong!)
In this world (his world!)
Life's an open book (open book!)
In this world (his world!)
Compromise does not exist,
In this world of worlds,
Every step meets the rest!

In this world (his world!)
One is all! (one is all!)
In this world (his world!)
Never fear the fall! (Never fear the fall!)
In this world (his world!)
Compromise does not exist,
In this world of worlds,
Every step meets the rest!

Yeah (yeah)
Beware your mind as it proves you wrong,
A bullet pushed as the clock strikes strong,
In this world, His world.
