My will to fight the knight
My will to fight the knight
My will to fight the knight

Will to fight
In a world inside is right and I'm alive
On my own
From a world that seems alone and I'm alive
Will to survive

My will to fight the knight
My will to fight the knight
My will to fight the knight

Face the knight
In a world of evil and I'll survive
On my own
Overthrown yet not alone and I'm alive
Will to survive

My will to fight the knight
My will to fight the knight
My will to fight the knight

Will to try
I will meet you eye to eye and I'll survive
Dead of knight
Feel the power, feel the might and I'm alive
Will to survive
