Two hours later at the movie it's over
Painted pictures of murder and slaughter
But no tear falls from my eye (falls from my eye)
No pain deep down inside (deep down inside)
Feels like Novocaine, is running through my veins

Why do I feel nothing?
Why can't I cry?
Bleeding victims, I watch die
Filtered through my eyes' blood turn white turn white,
turns white

Broadcaster relive and retell the story
Countless accounts of children, no family
Mommies they leave their babies (leave their babies)
And babies they died by lonely (died by lonely)
With a blankly stare
Some how I don't care

Why do I feel nothing?
Why can't I cry?
Bleeding victims, I watch die
Filtered through my eyes' blood turns white, turns white

Emotion is dead (x7)
Emotion, Emotion

WHY!
WHY!
Bleeding victims, I watch die
Filtered through my eyes' blood turns white
Bleeding victims, I watch die
Filtered through my eyes' blood turns white, turn white
