Take a message, say I miss you, and I'm sorry for the change. I've been trying to get back, but it seems I've lost my way.

Don't stop thinking about me there, don't forget the message we both shared. I still believe that you're coming back to me. I can remember everything for once in my life.

[Chorus]

I know things are gonna get better, wait and see. I've been getting back into what I need.

Time has passed and the years have worn away, it seems I'll never be the same. Don't stop dreaming aloud and thinking about these words.

[Chorus x2]

I know things are gonna get better, wait and see. I've been getting back into what I need.

[Bridge]

Where am I know? So far away... It's time to start over again.

[Chorus, keeps on fading until song ends]

I know things are gonna get better, wait and see. I've been getting back into what I need.
