### "I Live In A Van"

Woke up this mornin at the hotel  
Rolled up a blunt got high as hell  
Fucked another groupie name in my cell  
Hell, oh well, it's time to bail  
Walkin to the van with my suitcase  
Drivin cross country to a new place,  
Exit 420 get something to eat,  
Greet who I meet  
Smoke a sweet  
Climb back on to the interstate  
Yes, got a date, can't be late,  
Pulled up to the club get a sound check  
Walk up to the bar get a long neck  
Shootin some pool, act real cool  
Looked at her ass but please don't drool  
I looked at my watch, start thinking  
Yeah it's time for me to start drinkin.

My name is afroman  
I live in the back of a Chevrolet van  
Everynight somewhere new  
Smoking weed, drinkin brew

Dressin room, (are the moe?),  
I get fucked up before the show  
Ride to the club smoking a dub  
Hoppin out the van with the woofers on sub.  
It's time to go on  
I'm drunk I'm high c'mon  
How's everybody doin  
Which of you ladies feel like screwin  
Women on stage  
Security in rage  
Guitar solo,  
Colt 45 kickin in OH NO

Uh oh I'm playin it right  
What? shit sound tyte  
Encore  
We want more

Yeah, break that shit down

Shake the hand of the fan  
Introduce to the band  
Sign autographs, take pictures  
Try to be polite to these fake bitches  
One of these bitches just might,  
Kick it with an internet rapper tonight  
Best case scenario  
We Get high and fuck very slow  
Pass out with her ass out  
So I can rub it, man I love it  
Early in the morning yes yes I know  
Hug my neck kiss my cheek yes she gots to go  
I do too I do too  
Smoke some more weed  
Drink some more brew  
I love my life  
Peace  
No stress to strife
