we built the great twin towers into the sky  
but osama brought them down, and made us cry  
if he thinks he can live now, he must be highh  
osama must die X3  
ur hiding in your cave, but now you must die  
u probably think your brave, but now you must die  
we're now digging your grave so now you gotta die  
osama must die X3  
you had to push your luck, now you gunna die  
i bet you a hundred bucks, that you gunna die  
osama you just plain \*beep\* and you know why  
cuz you gunna die X3  
When we find that S.O.B he gunna fry  
maybe cook him up inside, a chicken pot pie  
i'd like an osama sandwich with cheese on rye  
osama must die X3
