Hey, sugar, how you doin'?  
Your pretty face don't match that nasty attitude  
What do you mean, 'Where's my girl?'  
Probably with your man, can we fucc?

She won't let me fucc  
I really need to bust a nut  
She won't let me fucc  
I really need to bust a nut

Hey, check this out  
It's so frustrating being a man  
All these sexy women don't understand  
Things we need to do, every other day or two  
Like take you home, baby and make sweet love to you  
But you, you won't let me fucc

She won't let me fucc  
(You say the mood ain't right)  
I really need to bust a nut  
(I know that pussy's tight)  
She won't let me fucc  
(Give it to me, baby)  
I really need to bust a nut

Her heart is still broken  
(Poor baby)  
Her emotions are sore  
(I know what you mean, girl)  
She is trying to recover from the man before  
(Hey, that's my homeboy, cuz)

Her ex-boyfriend  
(Who, Jermaine?)  
He probably can't see  
(Shake that ass)  
That it was easy for him  
(Uh, say what?)  
But he made is hard for me  
(Why, man?)  
'Cause she, she won't let me fucc

She won't let me fucc  
(Aw, give it to me, baby)  
I really need to bust a nut  
(You know just what I need)  
She won't let me fucc  
(Girl, you eatin' all my food, you drinkin' all my beer)  
I really need to bust a nut  
(You smokin' all my weed)

You rub your ass against me on the disco floor  
(Shake that ass)  
I asked you for your number and you said, ?Hell, no?  
(That's alright, hey, fuck that bitch look at that one over  
there, cuz)  
You always hang around me everyday  
Different women wanna kick it but you scare them away

Now I get offended when you come around  
'Cause I'm tired of my organs  
(Your organs?)  
Going up and down  
That sucks 'cause she won't let me fucc

She won't let me fucc  
(Aw, give it to me baby, give it to me, honey)  
I really need to bust a nut  
(Don't play with my head again)  
She won't let me fucc  
(Let me hit it, baby, let me hit it, baby)  
I really need to bust a nut  
(Are you a lesbian?)

Oh, let me lick it, baby, let me stick it honey, buccoooc  
I'll give you my money  
Girl, you can have it all, go ahead and have a ball  
If you want, you can take them both, baby

In the year 2000, I see thousands  
Of pretty young women I find arousin'  
Grocery store shopping, magazine browsin'  
Many different ways they keep their hair styles

And full of boredom, I walk toward 'em  
Get 'em close to me 'cause I'm supposed to be  
Male aggressor, female impresser  
Say the right things, possibly undress her

But that's the post game, this is still the pre-game  
Silly woman, She-game, baby, what's your name?  
Even though I'm a freak, I play it off like a college geek  
Crack a smile and politely speak

With intellect to the woman I select  
Hoping that she won't detect  
My egotistical chauvinistical  
Lust, I thrust 'til I scream like Mystical

The wrong message, I hope I'm not sending  
Laughing and pretending my dick's not extending  
Can't be overzealous, she might discover  
She's walkin' away  
(Bitch)  
Blew my cover

She won't let me fucc  
(You know I love you)  
I really need to bust a nut  
(Please don't change the subject)  
She won't let me fucc  
(We coulda fucked all night long)  
I really need to bust a nut  
(But, but, but, but your telephone number is wrong)

She won't let me fucc  
(Girl, you got a lot to give)  
I really need to bust a nut  
(You dress, you dress, so provocative)  
She won't let me fucc  
(I can see your lingerie from real far away)  
I really need to bust a nut  
(Bitch, you must think I'm gay)

Don't make me beg, baby, let me rub your leg  
Don't make me cry, look into my eye  
Girl, you damn pretty, stop actin' so [unverified]  
Put some oil on your titt  
Hey, man, I'm up outta here, she don't wanna fuck
