

## Olsen Twins "Butterflies In Your Stomach"

Visit "[Butterflies In Your Stomach](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When you got butterflies in your stomach  
And a desert in your mouth  
Your body's signifying  
It wants a way out  
Cause you're scared that you might mess up  
Afraid that you might goof  
So when you're feeling really nervous,  
This is what you got to do

Chorus  
Just breath a little deep  
And slip a little water  
Know that you'll be great  
Everybody's gonna love ya  
Especially if you smile  
When you step out on that stage  
Ohh yeah! Ohh yeah! Ohh yeah! Ohh yeah!

Wow! I can't help it. I still have butterflies in my  
stomach  
You know, it could be worse  
Yeah, you could have a caterpillar up your nose  
Ok, ok, ok  
What did a dancer do when she hurt her foot?  
She called a toe-truck!

Now there's something that you must know  
Since you've done this all before  
Every fear is gonna leave you  
When you step on that dance floor  
Cause you're doing what you love most  
And practiced for four years  
And if you're dancing from your heart,  
Then you will leave them all in tears, so

Chorus (2x)
