this is just a little somethin i'm gonna have to write ya  
for my homies back on the block all my real eastsidas  
contimplatin on the battlefield the zones are all across  
the city  
who's gonna be blastin against and who's gon be  
bustin wit me  
trying to stay content but my consience has got me  
facin cases  
and now theirs even more killers but i wont forget their  
faces  
puttin hits on motha fuckas shakin, brakin em down  
on the rebound we don't bounce out we just clown  
no fear for my peers cause we shootin its clear  
takin no damn prisoners in this war we have here  
straight slanger from the gutters tryin to pay the cost to  
be da boss  
everyday i got to eat so in return im prayin to a cross  
bangin, shootin and recruitin and i never be changin  
so im bustin on opposition when they steppin in my  
ranges
