Who are you talking to?
Better watch where you're going through
Shut your mouth before I kill you
Coz I'm listenin to the music that I'm into

I miss my friends back there
And I'm glad you know that I really care
All my friends are smarter than me
But when it comes to rap, they all agree

Don't say anything about my friends or my brother
Coz when it comes to fighting, you better run faster
I'll chase you like I'm on a roller coaster

Mothafucka! What you talking about?
Shut the fuck up! I don't wanna hear you shout
Better listen or I'll throw you in the bin
Freak watch out coz I'm gonna win

I miss my friends back there
And I'm glad you know that I really care
All my friends are smarter than me
But when it comes to rap, they all agree

Who are you talking to?
Better watch where you're going through
Shut your mouth before I kill you!
