awake with my eyes open  
waitin for the rain to stop  
feeling the wind around me  
hearing the drops surround me  
take my hand, we're going to go

around, around  
with no peace of mind  
skies burrowing and rolling  
stinging arrows shining from above  
hurtling straight towards me

i live in the center of the universe  
the world revolves around me  
nothing you can say  
will change what i see  
my life is my love,  
my love is by my side  
as the rain falls tonight

i've been blind to what i feel  
feeling what everyone else does  
wishing i could finally have you  
when i know i can't  
the love that i had

the tears of the heavens  
wash over me, and run down my eyes  
clearing paths of dirt,  
revealing my life of lies  
turning me around with you in front of me
