Sight to freedom rises descender.
Ground to screen of the seer, the sight, and the seen.
Up to obviate the sentinel and ground prevails.
Fuse to seed at the flight into absalom.
Orbits arm across to light the new day.
Harbingers eclipse a pendant of time unseen.
Solidate unto the field of a flow remember.
Glow serene to attenuate the space and time.
Crowns the sovereign rite to freedom.
Shored the origin forms to a ground accede.
Axiom core of the light shrine flight to shining.
Glow serene to attenuate the space and time.

Lock to field screen - row the ocean onto sentient
ground.
New rites of a Vedic sun to attenuate the blue horizon.
Prevails flight resplendent - sails the shrine effulgent
windship.
Stillness breathes apex supreme - reflects the new
tomorrow.
Lock to field screen - row the ocean onto sentient
ground.
New rites of a Vedic sun to attend the blue horizon.

Prevails flight resplendent - sails the shrine effulgent
windship.
Stillness breathes apex supreme - groundates toward
the mountain.

Walk onto freedom shrine deliverance.
Accede to ground under blue stoned moon.

Lock to field screen - row the ocean onto sentient
ground.
New rites of a Vedic sun to attend the blue horizon.
Prevails flight resplendent - sails the shrine effulgent
windship.
Stillness breathes apex supreme - I walk toward the
mountain.

Crowns the sovereign rite to freedom.
Shored the origin forms to a ground accede.

Axiom core of the light shrine flight to shining.
Glow serene to attenuate the space and time.
Orbits arm across to light the new day.
Harbigners eclipse a pendant of time unseen.
Solidate unto the field of a flow remember.
Glow serene to attenuate the space and time.
