Beseech choir through a grey veiled - arrival light.
And weeps no more onto the setting sun where efforts
fade.
Suffuse the stream of memories and broken rays as
dark recedes.
Transmute now remainder. Old Abydos. Forward the
acolyte.

Summits ascendant traveler bows to celestial.
Disembodied legions salute the pilgrim seeker.
Reverentials to Lazarus echoes forth Osiric obelisk.
To leave the feborn form. Rise to freedom.

And posits the sentient onto the Nirvikalpian.
Sheds now the chrome auric shroud of untethered
spirit.
Astral preceptors formate in consecration.
Transmits from minaret across beautified dawn.

Visage to auric accordant-form; in reascension.
Emits reverential tears in dhyanic refuge.
Arise perceiver.
Returns to sky; arrive home. Pilgrim seen.
