Cigarette smoke swerves I
Contemplate the circles of
Smoke rings that he blows
Contemplating you
Chained to his memory
Remain in this reverie
Chained to this memory
Remain in this reverie
And that you're near I
Want a word in your ear a
Word without listen
Always meaning for you
Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie
Gladly I watch it
Sadly I want to
Contemplating you
Suffocating through
Always waiting for you
Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie
