You know I've always been a bad seed  
Drifted every way the wind blows  
Now I ain't got much to show  
You know you reap just what you sow

Now I was born to be a loner  
Tried to settle for a spell  
Had an angel in my corner  
Made her life a living hell

Bad seed  
There's a darkness I can't hide  
Bad seed  
Too much pain to keep inside

Now there's no need to try and help me  
I don't try to help myself  
I cling to a losin' hand  
Empty heart is all that's left

Bad seed  
There's a darkness I can't hide  
Bad seed  
Too much pain to keep inside

You know I've always been a bad seed  
Drifted every way the wind blows  
Now I ain't got much to show  
You know you reap just what you sow

Bad seed  
There's a darkness I can't hide  
Bad seed  
Too much pain to keep inside

Bad seed  
There's a darkness I can't hide  
Bad seed  
Too much pain to keep inside
