When you shake like a willow tree
You got something that worries me
When you do the rang-dang-do
I can't take my eyes off you

When you dance I'm your fool
I just want to watch you move
Do it do it do it for Daddy
Do it do it do it for Daddy
Do it do it do it for Daddy

Raise my hands, fall on my knees
You got your spell on me
You got the power to light my fire
You got the power to drive me wild

When you shake jungle style
You got the power to drive me wild
When you dance the blind can see
You make the dead raise up to speak

The way you move I come unwound
Feel my heart begin to pound
Do it do it do it for Daddy
Do it do it do it for Daddy
Do it do it do it for Daddy

Raise my hands, fall on my knees
You got your spell on me
You got the power to light my fire
You got the power to drive me wild
Do it do it do it for Daddy
Do it do it do it for Daddy
Do it do it do it for Daddy
