"Enough Is Enough"

Iâve been down this road so many times
I ainât no fool I can read the signs
I have learned not to count on you
Iâve been burned and Iâve been used

You paint a pretty picture in front of me
You say look but I donât see
I always pay for your mistakes
Iâve taken all I can take

Enough is enough
I said enough is enough
Iâm giving you up
I tell you now that enough is enough

I donât know what it is you want
Damned if I do and damned if I donât
I use to be your pride and joy
But now Iâm just your whippinâ boy

Now Iâve got to run just to save myself
I gave it all now thereâs nothinâ left
I always pay for your mistakes
Iâve taken all that I can take
