Get hip better slow down
Get hip better slow down
Better give yourself a chance to take a real good look
around

I know you got your red dress on
You know that I know somethings going on wrong
I know that you're going out tonight
I know that you know I'm too tired to fight
I'm begging you baby don't throw our love away

I can't stand this up and down
You know it's like a ride on a merry go round
You keep my heart on a roller coaster ride
Carnival life can't keep us satisfied
I'm begging you baby don't throw our love away
