"I've Tried"

Visit "[I've Tried](#)" on MotoLyrics.com

Iâve tried to make you love me
Iâve tried to win your heart
I cried over you
Iâm tired, Iâm through
I know you donât want me
And I know you donât care
I tried to make you love me
I tried to win your heart

Think Iâll move
A little further down the road
Think Iâll move
A little further down the road
When I leave this time darlinâ
Well I wonât be back no more
I tried

Iâve tried to make you love me
Iâve tried to win your heart
I tried everyday
And I cried every way
I know you donât love me
And I know you donât care
I tried to make you love me
I tried to win your heart

Think Iâll move
A little further down the road
Think Iâll move
A little further down the road
When I leave this time darlinâ
Well I wonât be back no more
I have tried
