I ain't cuttin' no more cane  
Even if the big man shoots me dead  
I ain't cuttin' no more cane  
Even if the big man shoots me dead  
You know that Clarence Johnson  
He will put a bullet through your head

Did not ask me for to be here  
Did not send for me to come  
Did not ask me for to be here  
Did not send for me to come  
They put me down here to pay  
For the bad things I have done

You want to get a drink of water  
But you know, you know you cannot stop  
You want to get a drink of water  
But you know, you know you cannot stop  
And if you make a wrong move  
You know that you are bound to drop

The world is wide and open  
And I'm bound here with these chains  
The world is wide and open  
Yet I'm bound here with these chains  
Even if I have to meet my maker  
Lord I ain't cuttin' no more cane
