### "Tears Like Rain"

Tears like rain, dark and clouded in my heart  
Tears like rain, dark and clouded in my heart  
Should have seen it coming  
Should have known it from the start

Every day I have to suffer, every night I have to cry  
Every day I have to suffer, every night I have to cry  
Yeah, you just never loved me  
I don't know the reason why

Tears like rain, dark and clouded in my heart  
Tears like rain, dark and clouded in my heart  
Yes, should have seen it coming  
Should have known it from the start  
Tears like rain
