Open up
don't close your eyes
a new beginning
its in your path
don't look back
what's done its done
its a new start
for you to fly oh oh oh

why look back now
when you have everything ahead of you
there is no need to get stuck
in the same old spot..

Chorus:
fly away and never
go back to that same place
where you left yourself
and lost your life
keep going
there's no need to look behind you
the past is past
and now you're moving on...

take the chance
whats there to lose?
the doors are open
for you to move oh oh oh

its only fair
to learn from the experience
but don't delay yourself
always in that same feeling

chorus...
