Faces and the voices
that run inside my mind
telling me they want me
but is it truth or not?

I run through the darkness
wanting to collide
but this secret keeps on
holding me through time..

time, time, time
holding me through time...

dragging those emotions
that I left behind
getting rid of factors
that mean nothing in mind

I step on the silence
that I once thought was loud
there is no sensation
now I'm just getting out...

as I make this new decisions
I understand what's right...

Chorus:
I believe in myself once again
I don't need anybody
to know just who I am
I believe that love can come from me
I don't need someone to know
that happiness exists...

an immortal feeling
of wanting to fly away
a desperation braking
through this walls of clay

why do we need others
to understand our path
we came alone

and alone we'll leave this life

chorus

aahhhhhhhhhhhh....

c'est une vie d'amour
que je cherche pour toujours
mais tout l'amour n'existe pas
ci tu n'aime pas a vous...

chorus

I don't need
nobody to tell me who to be
no voices and no faces
can tell me how to be me
I believe that I can fly away
to any surface of life
and I will be happy...
