From the moment I met you  
I felt like I couldn't move  
I felt you understood me  
and I wondered if you saw it  
but I felt it wasn't good...

But getting to know you more  
I realized I couldn't let go  
but I couldn't give in  
cus I knew your feelings  
and you weren't ready to start...

I tried hard to make the past  
in your life go away at once  
and tried to get in your heart  
well I felt complete at once  
and I can't let go  
I really want you more  
I wanna scream out loud  
that I want you  
and I wish that you were mine....

Chorus:  
I desire you  
and I want to know  
If you and I could ever  
be more than just friends  
you captivated me  
and you entrapped me  
and now I want to know if you and I  
could be more than just friends...

be more than just friends...

but my sensibility  
makes me always come in weak  
with every feeling I have  
well it's that I get that  
everything that went in your life...

but I wish to show you now  
that there is a furthermore

that love isn't a myth  
I want to show that  
if you let me now  
you will not regret it once  
I will make you happy I promise  
trust me you'll never forget this time..

chorus

I want to be more than friends  
I want to be more than just your friend oh...  
oh oh ohhhh yeeahhh...

chorus x2
