Let's fly over all the mountains  
I wanna be somebody else... ye eh eh eh  
ye eh eh eh...

left and right we go  
when we take it down below  
I wanna take you down with me  
wherever we may please  
there's no need to doubt  
anything that we can be  
I wanna take you down the highway  
of the love and great seduction...

baby you and I can do just what we want  
why you feel the pressure  
I really do not know why  
trust me we can be free  
there's no such thing as stop this  
baby lets just be ourselves  
tonight and for the rest of our life

trust me we can be anything  
we wanna be  
there's no limits  
as to what we can see  
we have the rest of our lives to  
take the adventure  
this feeling  
of the ecstasy..

Chorus:  
lets fly over all the mountains  
I wanna be someone else  
just like the birds I can fly up  
there's no limits to who I am  
I can be a witch or a dragon  
I can turn into who I want  
I am myself and I'll keep on  
imagining every other part...

repeat all

Let's fly over all the mountains  
I wanna be somebody else...

chorus
