there are a few things in this life
I don't believe.
people telling me they love me
and then leaving me
I learned to live with myself
glamorous at times
I thought I had love
well look it now its gone...

the bastard left me
thinking I was loved
after a few years
I was thrown away once more...
yeah right! you loved me
and you cant wait a few days
for me to understand
what I was thinking...

my mistake was ever meeting you
now I don't believe in ever wanting you
although
you wanna have fun and fuck around
and then see if you hit the jackpot
if not come back so I say...

Chorus:
yehehehe yeah right!
yehehehe yeah right!
go away and live your life
I don't care anymore of what you want...

promises promises
to me they don't mean shit
I believe only in facts and actions that I see
after that idiot that went and broke my heart
so much that really soon
was with another guy...

I don't listen to anybody that tells me
that they want me
knowing its for the moment
I am done if you think I'm coming back

to you well there's something
you should know...

chorus x2

I feel like this cus I was so hurt
though I know someday someone will come
and show me real love
everyone is different
everyone is different
I know I will find it
but as for you I say...
