im staring at the pillow where you slept last night  
it was almost like you were laying there  
and the shirt that you wore of mine  
took it off and threw it across the chair  
now its kinda hard to get you off my mind  
when i keep seeing you everywhere  
for example like that lipstick on that glass of wine,  
damn  
sitting right over there

and i cant play it off like we're friends like i used to  
no, i cant pretend like i used to  
so now im laying in my bed thinking bout you  
and what do i do

girl, im feeling like im coming down with the case of  
you  
now, it started in my head but it trickled down to my  
shoes  
i feel so weak, so hard to breath  
but it only seems to happen when you leave, girl  
ain't nobody ever had me feeling quite like you do  
im coming down with the case of you

trying not to think about you only got me missing you  
more  
and loneliness ain't no cure  
though it was over about now  
but no, not yet  
pulled the covers up to my head  
now im feeling dizzy, and my mouth is dry  
with just the thought of you on my mind  
its kinda crazy, what a mess im in  
i cant believe this is happening

and i cant play it off like we're friends like i used to

no, i cant pretend like i used to  
so now im laying in my bed thinking bout you

girl, im feeling like im coming down with the case of  
you

now, it started in my head but it trickled down to my shoes  
i feel so weak, so hard to breath  
but it only seems to happen when you leave, girl  
ain't nobody ever had me feeling quite like you do  
im coming down with the case of you

now this aint no common cold  
what i feel is original  
and i know there is a remedy  
when you bring your body back to me

girl, im feeling like im coming down with the case of you  
now, it started in my head but it trickled down to my shoes  
i feel so weak, so hard to breath  
but it only seems to happen when you leave, girl  
ain't nobody ever had me feeling quite like you do  
im coming down with the case of you

girl, im feeling like im coming down with the case of you  
now, it started in my head but it trickled down to my shoes  
i feel so weak, so hard to breath  
but it only seems to happen when you leave, girl  
ain't nobody ever had me feeling quite like you do  
im coming down with the case of you
