Chorus:

"Puerto Rico" is where she come from
she asked me do i love her that record song
by si si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

I see you party in the streets,
see my myself climbing in the
seats the hood is like heaven now reminiscing
them days when i thought about throwing on a towel
the night before the month was like Christmas
this kid keep hustling me sometimes i felt
like i couldn't breath i would have to sit back
and play naive and it hurt watching my mum struggle
trust me when you broke and hungry its hard
to stay out of trouble its a survival of the fittest
whatever it took to bring money to the table
i did it even my girl lost faith in me
left me out trapped in this negative energy
listening deeply but i have to keep on
moving i refuse to let this darkness, catch up to me

chorus:

"Puerto Rico" is where she come from
she asked me do i love her that record song
by si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

Dowled up but it was just a distraction
even the streets never gave us a little time to relax
writting my rhymes to a vibe scap in the corner
wrapped me like a cake im trying to be this super man
in the ghetto get this paper take this music
to a whole new level trouble found me now
i found myself in puerto rico spy got hot
i had to roll living with my paps
i really don't no missing my lady try not to tell it show
her new man telling her i would probably never blow
wanted to tell to the flow i know robbin it stay in the
zone

and move hard or go home open my eyes now

i see myself on the rock miens bonitas
everywhere i wanna ride

chorus:

"Puerto Rico" is where she come from
she asked me do i love her that record song
by si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

All you gotta do is listen
banno yellow telia mama(yeah,yeah,yeah)
seie tiel mama bata
bitu weil teia sicla
como elese wella
si pak pak wella

I never thought i would see the day
that i will be getting money
making music so these hatters can't take nothing off
me
when the chicks wouldn't holla i just play them back
all i had was a flow and a ball cap,
wall to wall boom boom across the room
thinking to myself they'll be dancing to me soon
im in the game but I'm selling the streets though
rapped
so hard that Puerto Rico Puerto Rico ..

chorus:

"Puerto Rico" is where she come from
she asked me do i love her that record song
by si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

All you gotta do is listen..
she looks fine just whistle at her
see the cops coming then just miss at her
if i cant spend my weekend in a cell country
reggaton.. reaggaton... reggaton... (carnival style)
