[Intro:]

Go head from the top!
Yeah. Ye!
Turn my music up (Haaaaa)
Is y'all wit me?
You know, I can feel your presence
Come closer
Yeah

[Verse 1:]

You turn me on
You flip the switch
I feel the current
Pushin me, pullin me
Cloooooose to you
Shocks in my system
There's an attraction
Look how I'm actin
Hard for me to keep my cooooool

[Chorus:]

Vibratioooooons
Feel it in my chest! (feel that? haha)
When we tooooooouch
There's a charge I get!
(uh, you feel that? I feel that)
There is an energy
That I just can't control (It's electric)
When it takes over me
I let myself go!
(It's electric, oh, so, so electric)

[Verse 2:]

Let's start some static
A bit of friction
Feel so magnetic
Pullin me more into youuuu! Ho!
I got you open
The waves are flowin
So now you're glowin
I knew you were feelin me toooo!

[Chorus:]

Vibratioooooons
Feel it in my chest! (ah, you feel that?)
When we tooooooouch
There's a charge I geeeet! Woo!!
There is an energy (energy)
That I just can't control (Ooooooh, oh)
When it takes over me (Over me, oooh)
I let myself go!
(It's electric, oh, so, so electric)

[Bridge:]

It lives inside of me (alright)
A seperate (ye!) entity
I can't ??
It's electric, It's electric, It's electric!!
WOOO!!

[Chorus:]

There is an energy (energy!!)
That I just can't control (I just can't controool, no no!!)
When it takes over me (Over meee! Yeaah!!)
I let myself go!

[Beat breaks]

Oh!
Woo!
Oh no!
Aha!
Oh!
Give it to me!
You gotta watch me!
Cuz you know I'm dancin right!
It's electric
He!
