911 got a call
Said hurry send the ambulance please
They asked me who was involved
And I told them that the victim is me
Stabed me in the back and left me on street
Now who would do this to me
I thought the suspect...
That's when they saw your finger print on the scene

[Chorus:]

As much as I don't wanna believe it
Whatever is this plain to see
I don't wanna know the truth but I need it
And the jury finds you guilty guilty aha
For breakin my heart
You're guilty guilty aha like murder in the third degree

Oh so shes a criminal (and I never seen it coming)
Wouldn't have guessed it for a hunderd years...
You even told me you admit it
But I told them not my baby
That's what they told me that's been happening
Then they throw the pictures on the table
Wanted me to point you out but I wasn't able
'Cause I thought I fell in love with an angel
Never thought something so beautiful could be fatal

[Chorus:]

As much as I don't wanna believe it
Whatever is this plain to see
I don't wanna know the truth but I need it
And the jury finds you guilty guilty aha
For breakin my heart
You're guilty guilty aha...
You're breakin my heart like murder in the third degree

Girl all of the things you did to me
Should be a falony they should lock u away and burn
the key
Now all I do is sip hennesy to get rid of the memories
Because every thought of you brings misery

Girl all of the things you did to me should be a felony
they should lock you away and burn the key
Now all I do is sip hennesy to get rid of the memories

[Chorus:]

As much as I don't wanna believe it
Whatever is this plain to see
I don't wanna know the truth but I need it
And the jury find you guilty guilty aha
For breakin my heart
You're guilty guilty aha like murder in the third degree

But I can't escape the fact that you're guilty.

[Chorus:]

As much as I don't wanna believe it
Whatever is this plain to see
I don't wanna know the truth but I need it
And the jury find you guilty guilty aha
For breakin my heart
You're guilty guilty aha like murder in the third degree
Like you did, like did.
