[Omarion: Talks]

Hey

I Wanna Talk To You

Now Woman, I know you don't know ways feel
appreciated us, man

but we do appreciate you, you know, we may not say it
to show it all the time, but this is one of those songs,
that you should turn up loud, listen.

[Verse 1:]

Sometimes I take advantage of
always, having you here with me

But don't think for a second love

That I, Don't see how much, how much you do for me

From the way you kiss me every morning to just being
there when I need you up here

And all I can say to you

[Chorus:]

Tut-tut-ut-tut [x6]

[Verse 2:]

You can't always depend on love , no, no-no-no

It means more than that for our relation ship - to work

That's when you come in, you make all this work by
understand me

Girl you don't have to say you love me, cuz you show it
everyday just what I need to you, to do

[Chorus:]

Tut-tut-ut-tut [x9]
