Curse them vicky secrets you wearing for make me feel  
so inferior

And curse that little bottle coco butter that blesses your  
exterior

Woah

I can see the way your lingerie is looking ,you just  
trying to test me

And I don't like the way them dollar bills are sliding up  
down your body

[Refrain]

They make me so jealous but it can't happen

Girl just go and get it call me foolish or even selfish

But baby I cant fight the way I feel

[Hook]

That pole should be my body

This floor should be my bed

Everything they throwing baby girl ill double it

This club should be my crib

You're my private dancer

You're my private dancer

Throwing 100 when I should throwing 1s

Throwing 100 when I should throwing 1s

Throwing 100 when I should throwing 1s

Throwing 100 when I should throwing 1s

Girl I hate the way that your necklace is hanging like its  
coming on to you

And I know that them earring you wearing are

whispering all the nasty things I wanna do to you

I can't help but feel a little angry bout the bottle on your  
lips

And who gave you permission to get them roses and  
bible tattooed on your hips

[Refrain]

They make me so jealous but it can't happen

Girl just go and get it call me foolish or even selfish

But baby I cant fight the way I feel

[Hook]

That pole should be my body  
This floor should be my bed  
Everything they throwing baby girl ill double it  
This club should be my crib  
You're my private dancer  
You're my private dancer  
Throwing 100 when I should throwing 1s

Get mad when I know I should be having fun  
Lately I've been tripping thinking that you're the one

[Refrain]

They make me so jealous but it can't happen  
Girl just go and get it call me foolish or even selfish  
But baby I cant fight the way I feel

[Hook]

That pole should be my body  
This floor should be my bed  
Everything they throwing baby girl ill double it  
This club should be my crib  
You're my private dancer  
You're my private dancer  
Throwing 100 when I should throwing 1s

Throwing 100 when I should throwing 1s  
Throwing 100 when I should throwing 1s  
Throwing 100 when I should throwing 1s
