You know the thing that hurts me the most  
Is the simple fact that you can't love me the way I love  
you...

Gone mentally, gone mentally, got me fucked up  
Gone mentally, gone mentally, she got me fucked up  
Eye sight full of lies  
I don't know where my heart lies

When love's got a grip, it won't let go  
It's not your choice, you can't leave, you can't say no  
Say no, s-s-s-say no, you can't say no

Gave you my all, & I know you seen it  
My eyes is bleeding, from the thought of you sleepin'  
With another one, another her, another woman  
Baby, girl I only needed you by yourself, by yourself  
But instead of loving me, you wanted somebody else

When love's got a grip, it won't let go  
It's not your choice, you can't leave, you can't say no  
Say no, s-s-s-say no, you can't say no
