Yeah (young money!)
Back like I left somethin'
Omarion
So I got this situation
My girl's been hangin out With this other girl
Let me talk about it

Where is my girlfriend?
I been callin'
She aint picked up
Somethings fishy
She won't hear me
Now i'm sittin' here
Like what the fuck?

This is too unusual
She never did it like this before
She usually calls me back within the hour
I bet she's out with whats her name
The girl that doesn't have a man
Assumptions in my mind got me confused girl

Sometimes she can't keep a pretty hands(?) off me
But when shes with her girlfriend she don't even speak
She could spot a pretty girl faster than I can
Tells me that she loves me but I'm tryna' understand

(3X)
I think my girl is..
Bi Ay Ay Ay Ay Ay

Should I say goodbye?
Should I give it a try?
I think my girl is...

Secret conversations in my face
They talking code
Matchin tattoos, to the bathroom
At the same time they go

This is too unusually
Never been like this before

Affection aint the same when she's around her
I wonder if im trippin
Visions of them kissin
Now I wanna know the truth cuz....

Sometimes she can't keep a pretty hands(?) off me
But when shes with her girlfriend she don't even speak
She could spot a pretty girl faster than I can
Tells me that she loves me but I'm tryna' understand

(3X)

I think my girl is..
Bi Ay Ay Ay Ay Ay

Should I say goodbye?
Should I give it a try?
I think my girl is...

(2X)

Sometimes she can't keep a pretty hands(?) off me
But when shes with her girlfriend she don't even speak
She could spot a pretty girl faster than I can
Tells me that she loves me but I'm tryna' understand

(3X)

I think my girl is..
Bi Ay Ay Ay Ay Ay

Should I say goodbye?
Should I give it a try?
I think my girl is...
