(Ka):

God is silent, only eyes from where I stand
Some days eclipse the monumental scale of man
Life leaves us parentless in a world I do not
Love
There's no causalty for what I'm thinking
Of...

(Guardian Angel):

And I am the face you see within the mirror
And I am the hand that holds the mist away
And I am the dream forgotten in the morning
And I am... I am...

(Ba):

We are the faith of your tomorrows
Let us breathe, let us see, let us be...
We are your prayers engulfed in sorrow
Let us breathe, let us see, let us be... let us
Be...

(Akh):

Oh God I only need to see,
To share this light,
To make this hope,
To make it me...

(Ka):

Life may leave us, stretched across the soul
We buried
Some days moving slower when the loneliness
Sets in
And if our children die, before we reach our
Own demise,
Then life is blacker still, blacker than the
Blackest fire.

(Guardian Angel):

And I am the face you see within the mirror
And I am the hand that holds the fist away
And I am the dream forgotten in the morning
And I am... I am...

(Ba):

We are the faith of your tomorrows
Let us breathe, let us see, let us be...
We are your prayers engulfed in sorrow
Let us breathe, let us see, let us be... let us
Be...

(Akh):

Oh God I only need to see,
To share this light,
To make this hope,
To make it me...

(All)

Let us breathe, let us see, let us be... let us
Be...
