Hold tight to the path you're walking
Don't let your resolve decline
Keep your eye on the prize
And your mind on your goals
And never fall behind

Dream yourself
Dream yourself awake
Dream yourself
Dream yourself awake
And never look down

Remember the life you're living
Is created in your soul
And what is real
Should never feel
Alien to the world

Dream yourself
Dream yourself awake
Dream yourself
Dream yourself awake
And never look down

Don't waste your tears on sorrow
Weighing in from your past
Everyone has a broken wish
Fallen beyond their grasp

Dream yourself
Dream yourself awake
Dream yourself
Dream yourself awake
And never look down

Dream yourself
Dream yourself awake
Dream yourself
Dream yourself
Awake
