You're lying awake  
The room is different  
The walls dissolve  
Replaced by sky  
Horizon blackening  
Twilight beckoning  
As the clouds are stretching wide  
Stars still shining  
Little holes  
That light is clawing to get through  
But hope is shifting  
With the shadows  
That are drifting on the ceiling as you move

(Shh... just close your eyes and go to sleep  
There's nothing to be afraid of...)

Are you awake?  
Sour thoughts are dancing now  
All around your head  
Shoulders shake, chattering teeth  
The cold wind rips the covers from your bed  
The apparition  
The eyes are digging  
Heart is pounding  
Eyelids will not close  
Your voice is failing  
The screams derailing  
And she stands so near to you

And nothing is sweeter  
Than the songs you're seeing  
Begging for the colder hand she hides  
Floating  
Flowing  
Her soul is hunting  
Glimmer  
Shimmer  
White lights breaking  
And fluid cries  
She is reaching  
Screeching

Imploring  
Seething  
And the haunting  
Hurting  
Spilling  
No one knows  
A kiss-like smile that leaves you beguiled  
Fading darkness and the whispers of a ghost
