How fragile it resonates against my shoulder  
Fragments of ourselves we reconceive  
Perfection's kiss I see so clearly now  
Shimmering her eyes, like porcelain

And what do I need to do to hold this feeling  
Like magic that repairs a broken heart  
Tell me, what do I need to do to keep this moment  
Vulnerable and pale, she stole my heart

And everything I do in the end I'll give to you  
I won't take a single breath for granted  
Everything I do in the end I'll give to you  
I won't take a single second with you for granted

Yesterday I looked beneath the madness  
And here today I find you in my arms

What do I need to do to hold this feeling  
Like magic that repairs a broken heart  
Tell me, what do I need to do to keep this moment  
Shivering and pale, she claimed my heart

And everything I do in the end I'll give to you  
I won't take a single breath for granted  
Everything I do in the end I'll give to you  
I won't take a single second with you for granted

She watches with her eyes in distant wonder  
A world of possibilities within  
Wanting that part of happiness surrounding her  
Delicate she smiles, my porcelain

What do I need to do to hold this feeling  
Like magic that repairs a broken heart  
Tell me, what do I need to do to keep this moment  
Shivering and pale, she claimed my heart

And everything I do in the end I'll give to you  
I won't take a single breath for granted  
And everything I do in the end I'll give to you

I won't take a single second with you for granted
