

Omnisoul "All Or None"

Visit "[All Or None](#)" on MotoLyrics.com

Belief in me stems from a higher being
You think I'm crazed with this guitar in place
Achieve great things in ways not every man thinks
Just shake your head
I know you think I'm mad

Fools act insane, it's just a game we play
It's all or none
All or none
I know there's a way for me to make dreams happen
It's all or none
All or none

This life's a blur, still I remain secure
No self control taught me to break the mold
Achieve great things in ways not every man thinks
Question the truth
There's nothing stopping you

Fools act insane, it's just a game we play
It's all or none
All or none
I know there's a way for me to make dreams happen
It's all or none
All or none
